

## COLLAGE PROJECT

Recently many students in our school have been very curious about why they need to learn Spanish. Since you are a 5th grader who recently started learning a new language, your teacher has selected you to create a poster that can help younger students understand the value of learning a new language. Your task is to create a collage that will highlight many of the benefits of knowing a second language.

The task:

- Create a collage (collection of pictures) to support the benefits of learning a second language.
- It must highlight at least 2 of the 4 reasons we studied in class (but feel free to do more).
- Pictures may be from a magazine, newspaper, printed from the internet, drawn etc...
- You need at least 10 pictures total. Feel free to use more pictures.
- At least 5 of your pictures need to relate to Spanish.
- You must include at least 5 vocabulary words or phrases that you learned this year or last year.
- All pictures need captions. You may group a couple of pictures under the same caption if they relate to each other.
- Your work needs to be colorful, neat, and visually appealing.
- We will also write a short paragraph expressing how you think learning a new language can help YOU in the future. We will work on the rough draft of the written part in class. You will need to complete the final copy at home.
